

GAL-KON

Your Solution Partner

COMPANY PROFILE

Gal-Kon Grup is a well-experienced firm and has been active in various local projects. It focuses to serve its customers better by using the experiences obtained from such projects.

Gal-Kon Group's areas of expertise encompass a wide range of civil engineering and infrastructure projects. These include the construction of dam reservoirs, various types of tunnels for irrigation, advanced shipyard facilities, comprehensive road infrastructure and design works, as well as the development and installation of durable steel bridge systems. With a strong focus on technical excellence and innovation, Gal-Kon Group consistently delivers high-quality solutions tailored to meet the unique requirements of each project.

In addition to its core construction capabilities, Gal-Kon Group also provides professional contractor and project management services. These services are designed to ensure that every stage of a project—from planning and design to execution and final delivery—is carried out in full compliance with applicable legislation, technical specifications, and industry standards. By aligning with the specific needs and expectations of its clients, Gal-Kon Group aims to deliver efficient, cost-effective, and timely results that reflect a strong commitment to quality, safety, and customer satisfaction.

DAM

Our company specializes in the design and development of high-quality **dam and lake infrastructure**, delivering reliable and sustainable solutions for water management, hydroelectric power generation, and flood control. With a team of experienced engineers and project managers, we ensure each dam is built to the highest safety and environmental standards, using advanced technology and materials to guarantee long-term performance. From feasibility studies to final construction, we provide end-to-end services tailored to meet the specific needs of government and private sector clients.

ROAD CONSTRUCTION

Our construction company offers professional **road design and construction services**, creating safe, efficient, and long-lasting transportation routes. We carefully plan every detail—from layout and drainage to materials and traffic flow to ensure smooth and durable roads that meet both local and international standards. With a skilled team and a focus on quality and safety, we deliver projects on time and within budget. Our goal is to build roads that improve connectivity, support development, and serve communities for years to come.

BRIDGE SYSTEMS

Our construction company specializes in building strong and reliable **bridge systems** for a wide range of needs, including transportation, infrastructure, and industrial access. We design and construct bridges that are safe, durable, and built to withstand heavy use and harsh conditions. Using modern engineering methods and quality materials, we ensure each project is completed on time and to the highest standards. Our team is dedicated to delivering practical and long-lasting solutions that connect communities and support economic growth.

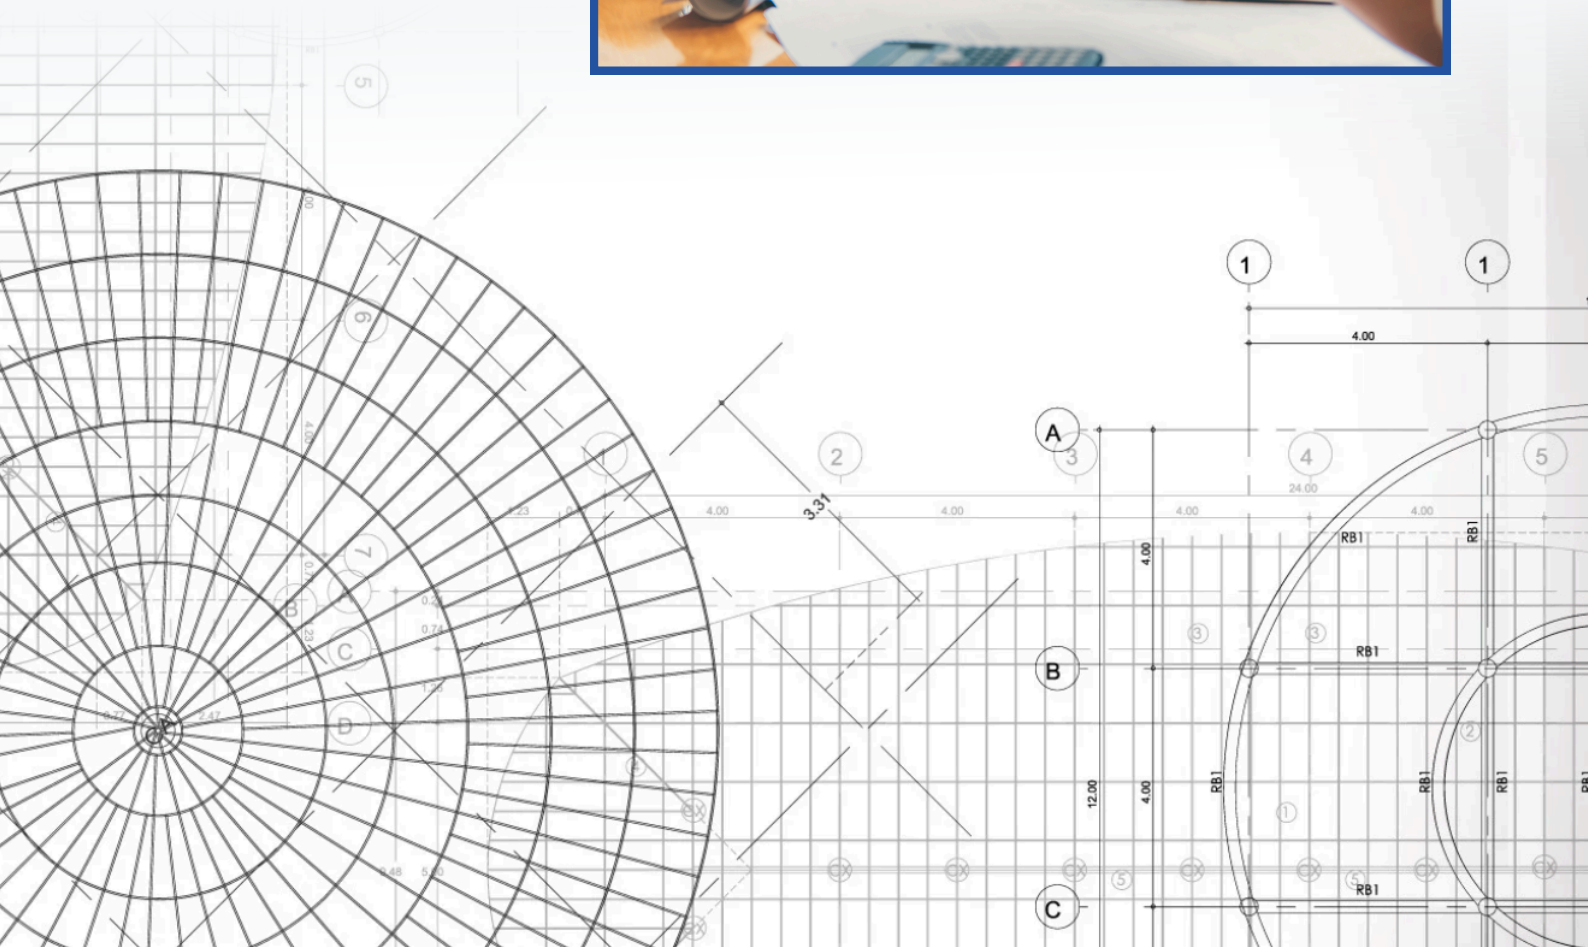

PROJECT, CONSULTING AND ADVISORY

Gal-Kon Group can provide these services with its long term experience :

- Designing your infrastructure projects
- Preparing bill of quantities (BOQ)
- Preparing tender documents
- Controlling the construction in accordance with the project
